

## Tank Monitoring Solutions

15 year life • Daily calls + half hourly alarms • GPS enabled

[siliconcontrols.com](http://siliconcontrols.com)

## Distribution & logistics transformation

### Drive service productivity

- Deployment management & device productivity
- GPS based account, tank & device location services
- Cost center accountability for equipment & monthly fees

### Build customer loyalty

- Revenue growth through service differentiation
- Empower consumer choice through energy usage profiling
- Avoid run outs to reduce customer terminations

### Bottom line growth

- Accurate forecasting & order management
- Customer service & reduced termination
- Route optimization & fleet reduction

## The GASLOG Advantage

### SC415 FEATURES

- Supports LTE cellular networks
- Daily calls + half hourly alarm checks
- Level, fill & high use alarms
- Integrated GPS
- Auto account & tank association
- Smartphone install tool
- Monitors two tanks
- 15 year operation\*

\* Battery life is dependent on number of calls and sensors, location, radio signal strength, extended exposure to high/low temperatures.
